

SOURAV BHARDWAJ

Full Stack Web Developer

Najafgarh, Delhi | +91 7838168571 | souravbhardwaj2005@gmail.com

[Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFILE

Full-stack web developer skilled in building scalable, responsive applications using modern JavaScript technologies.

Experience in developing real-world projects including AI-powered platforms and interactive web apps, LLMs. Strong focus on performance, clean architecture, and user-centric design.

SKILLS

Languages: JavaScript, HTML, CSS, Python

Frontend: React, TailwindCSS, TypeScript

Backend: Node.js, Express

Databases: MongoDB, PostgreSQL, Firebase

Tools: Git, GitHub, VS Code, Figma, Canva

PROJECTS

Artist Bazaar (AI-Powered E-commerce Platform) | Gen AI Hackathon — Designed and developed a full-stack e-commerce platform enabling local artisans to sell products with role-based access (buyer/seller/admin)

- Integrated an AI chatbot to assist users with shopping, login, and support interactions
- Built during active participation in a **Gen AI Hackathon**, focusing on real-world commerce solutions. [LINK](#)

Waste Wise (AI Waste Management System) | India Innovates Hackathon — Built an AI-driven system for waste classification and tracking

- Applied data-driven insights for improved waste management and monitoring
- **Developed while participating in India Innovates Hackathon**, targeting sustainability challenges
- Classification done by the LLM model. [LINK](#)

RailMate AI — React, Node.js, PostgreSQL, FastAPI, InsightFace, OpenCV, FAISS

Built an AI-powered railway safety platform featuring real-time missing person detection, crowd monitoring, SOS management, smart route planning, and role-based administration using a React frontend, Express backend, [PostgreSQL](#), and Python-based AI services. [LINK](#)

Weather APP — Developed a responsive web application using OpenWeather API to fetch and display real-time weather data with optimized UI/UX. [LINK](#)

AIR DRAW — Implemented gesture-based drawing using webcam hand tracking, converting real-time movements into digital strokes. [LINK](#)

EDUCATION

B.Tech in Computer Science — Maharshi Dayanand University (2023–2027)

STRENGTHS

Problem Solving | Team Collaboration | Fast Learner | UI/UX Focus
